Education

Wilfrid Laurier University

Bachelor of Science in Computer Science, Minor in Statistics, Co-op Program

Waterloo, ON

Sep. 2023 – Aug. 2027

- **Clubs:** Laurier Computing Society, Laurier Cybersecurity Club
- **Related Credits:** Data Structures 1 and 2, Object Oriented Programming, Software Engineering, Algorithm Design, Microprocessors, Advanced Calculus (1, 2, and 3), Discrete Mathematics, Linear Algebra

Technical Skills

Languages: Python, Java, JavaScript, HTML, CSS, C, Assembly

Frameworks: React, Next.js, Tailwind, Node.js, FastAPI, Express.js, MongoDB

Developer Tools: Linux, Git, GitHub, Docker, Postman, Markdown, Visual Studio Code, PyCharm, Eclipse

Libraries: PyPDF2, spaCy, pdf-lib, tkinter, Mongoose, jsonwebtoken, bcryptjs

Projects

🐙 CVLens | Web Application *Python, JavaScript, Next.js, Tailwind, FastAPI, spaCy, Docker, AWS, Git*

- Developed a **web app** that extracts structured data from uploaded resumes (**PDF/DOCX**) to automate the application process, eliminating the need for manual data entry.
- Built **NLP model using spaCy with NER** to accurately extract resume details, such as contact information, education, skills, and work experience creating a dataset with **200+** resumes.
- Developed **API gateway to trigger AWS Lambda function** that processes resume and returns **JSON**.
- Designed clean and **easy to use frontend with Next.js** that fetches the data from the **API gateway**.

🐙 Roomify | Web Application *JavaScript, Next.js, Tailwind, Express.js, Node.js, MongoDB, Postman, Git*

- Developed and shipped a fully functional **full-stack TFSA tracking app** (Roomify) in **under 24 hours** using the **MERN** tech stack (MongoDB, Express.js, React/Next.js, Node.js).
- Streamlined transaction management by designing **RESTful APIs** with Express, testing with **Postman**, and integrating frontend forms for deposits, withdrawals, and real-time room calculations.
- Built secure user authentication by implementing **JWT tokenization** and password hashing with **bcrypt**, enabling safe login/registration workflows.
- Created a modern, mobile-responsive dashboard UI inspired by Twitter's dark mode, featuring interactive cards, smooth transitions, and clean component design with **Next.js** and **Tailwind**.

🐙 MarxPDF | Web Application *JavaScript, React, HTML, CSS, pdf-lib, Git*

- Shipped a **web app** to **automate PDF form filling**, streamlining the manual process at Utility Marx and **boosting productivity** and **daily ticket completion** for **40+ employees**; later **brought on to automate additional internal systems** after successful adoption.
- Utilized **pdf-lib** to read, manipulate, and populate data in PDFs based on predefined ticket input data.
- Designed a clean, **user-friendly frontend with React**, allowing users to trigger the **PDF filling process**.
- Used **Git** for version control, ensuring smooth collaboration and development throughout the project.

Experience

Utility Locate Technician

April 2024 – Present

Utility Marx

Hamilton, ON

- Currently **automating internal systems** using **JavaScript** to streamline ticket processing and dispatch workflows, improving efficiency and daily ticket completion for a **15-person field team**.
- Provided remote **IT support** by accessing **company laptops** to assist employees across Ontario with **software updates** and **FRA installations**, ensuring reliable record keeping for quality locates.
- Precisely identified and marked underground utilities (**gas, water, electric, telecommunication**) using advanced equipment, ensuring safety and accuracy of **excavation projects**.
- Interpreted **utility engineered** documents ensuring detailed locates, **minimizing risk** to infrastructure **damage**.
- Used **Teldig software** to design **blueprints** with exact **measurements of utilities**, to comply with regulations.

Produce Clerk

July 2021 – Aug. 2023

Sobeys Inc.

Ancaster, ON

- **Trained and mentored** team members, ensuring adherence to policies and fostering a collaborative environment.
- Independently **managed customer orders**, stocking, and closing procedures in a **fast-paced environment**, demonstrating strong **problem-solving skills** under pressure.
- **Managed preparation and presentation** of fresh produce, including tagging, labeling, and organizing of stock.
